Forecast For East of England
Issued by Met Office Exeter
at 1600 on Tuesday 14 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mild but rather cloudy. Clearer in the north.

This Evening and Tonight:
Mild and rather cloudy for many, with cloud perhaps thick enough for the odd spot of drizzle in the south, with some mist or fog possible locally as winds fall light. Perhaps chilly and periodically clearer in the north, however. Minimum temperature 4 deg C (39 deg F).

Wednesday:
Probably remaining rather cloudy throughout in the south, although it should stay dry. Brighter overall in the north, with some sunny periods. Mild after a locally chilly start. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Becoming dry and settled but rather cloudy in this period. Starting on the mild side, but gradually cooling down, with a tendency towards increased frost and perhaps fog.
